

## BUCKET CREATION

Date	10 November 2022
Name	NANDHINI C
Team ID	PNT2022TMID16194
Roll No	927619BIT4062

### 1. Create a bucket in cloud Account:

The screenshot displays the AWS Cloud Object Storage console interface. On the left, a dark sidebar contains navigation links: Cloud Object Storage, Storage instances, Cloud Object Storage-px, Buckets (highlighted), Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area shows the 'Storage / Cloud Object Storage-px /' breadcrumb and the bucket name 'assbucket'. Below this, there are tabs for 'Objects', 'Configuration', and 'Permissions'. A notification banner at the top right states: 'A bucket created successfully! The bucket assbucket has been created and is now available to add objects.' The 'Objects' tab is active, showing a search bar with 'Prefix filter', a table header with 'Object name', 'Archived', 'Size', and 'Last modified', and a large dashed box for uploading files with the text 'Drag and drop files (objects) here or click to upload'.

## Buckets

Buckets serve as containers for objects, and can be individually configured in terms of their location, resiliency, billing rates, security, and object lifecycle rules.

Q Search

Create bucket +

Name	Public access ⓘ	Location ⓘ	Storage class	Created	
assbucket	Yes	jp-tok	Smart Tier	2022-10-01 11:48 AM
